With our retail business background of so many years we feel we know a good many of the problems of the Retailer.

One of these problems is for the Retailer to be able to pick up a plant or plants at once to fill an order and not have to wait days for an order to be dug and delivered.

We here at Ten Oaks have turned our Retail show garden and sales yard into a

so when you need planting material in a hurry you can come by and take it with you.
